Experience

Backend Developer - Tech Solutions Inc.

New York, NY | 2020-01 - 2023-06

- - Developed complex software systems using C# on the .NET platform, utilizing Visual Studio 2022 and Visual Studio Code
- - Led the integration of state-of-the-art AI solutions with the data science team for enhancing product capabilities
- - Implemented cloud-based web applications with real-time requirements on MS Azure and AWS, ensuring seamless hosting
- - Engaged in frontend development using ReactJS, TypeScript, and CI/CD processes, bridging the gap between backend and frontend
- - Provided guidance on software development processes including design, planning, estimates, and code reviews to optimize team productivity

Education

University of Example

Boston, MA | 2015-09 - 2019-06
